## **Our services**

- **NVOCC SERVICE**

BSL Group has an NVOCC business with a fleet 12000 TEUs including 40', 20' and special equipments.

Our main service is ex China , Korea,Taiwan, Thailand , Vietnam,Malaysia ,India and Persian Gulf ports to all Iran ports and vice versa. However we have our own service from Southern ports of Iran to Persian Gulf main ports.

We are Specialist in shipping DG cargo, especial equipment like flat rack, open top and referrer Container.

We provide a mix of container types to suit any cargo you want to ship With a modern container fleet and a strong focus on innovation, we are always looking for ways to make the container better for you.

- **FCL Shipment**

Blue star Shipping Line act as a line which has provided regular marine services from/to Iran where a container is exclusively used for a single shipment and the container is not shared with other cargo shipments.

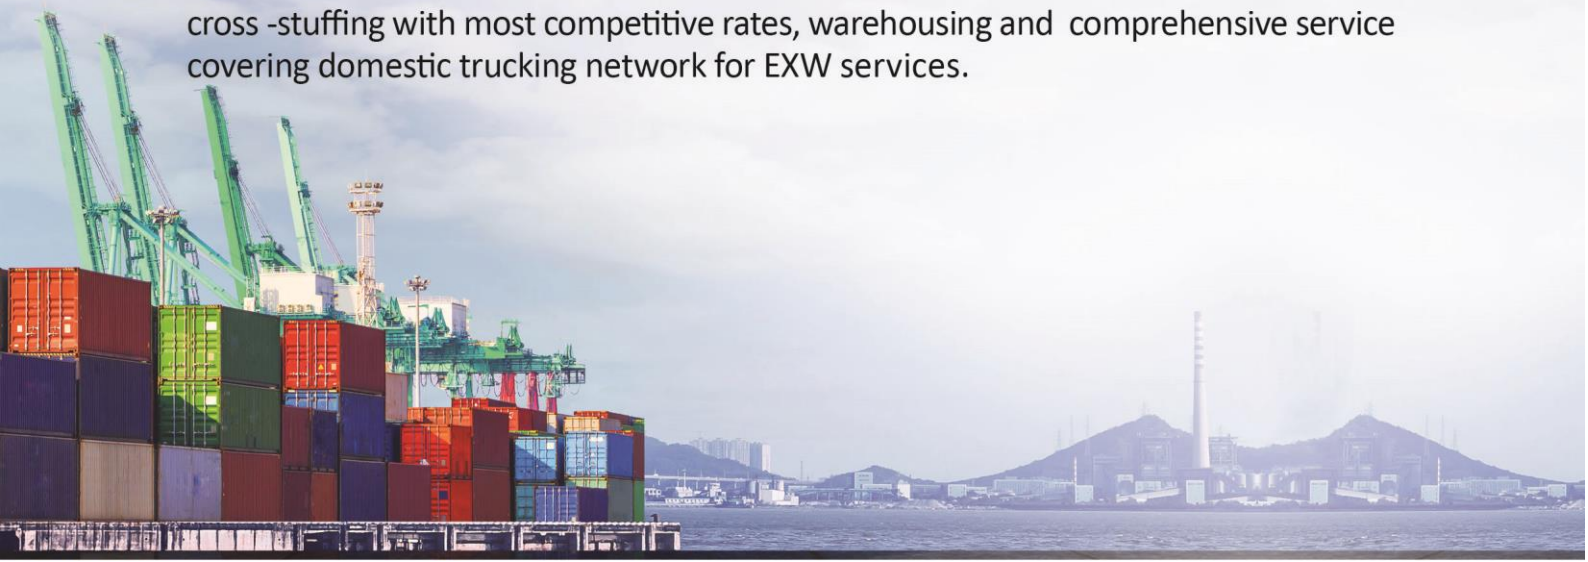

As NVOCC company, we own around 2500 containers including 40', 20' and special equipments .

We provide services from all china ports, Korea, Taiwan, Thailand , Vietnam, Malaysia , India and persian Gulf ports to all Iran ports and vice versa.

We are Specialist in shipping DG cargo ,especial equipment like flat rack, open top. We also can provide great Break-bulk shipments.

- **LCL Shipment**

Blue star Shipping Line has Direct services to encompass capabilities for handling less- than -container load (LCL) from china to BND with shortest transit time without cross -stuffing with most competitive rates, warehousing and comprehensive service covering domestic trucking network for EXW services.

## Cross stuffing

Blue Star logistics Company has an active company and office in the UAE (as an international hub port) and is well-experienced in handling numerous cross-staffing projects for well-known companies in various industries and is ready to handle your shipments in the best and safest way possible via its the most advanced equipment as well as operation cost management.

The most important point of using this method is to change the cargo container in addition to changing the shipping line. As a result of having code and number the containers belong to one shipping and can not be used on all lines.

For this reason, in cross-staff operations, the cargo is unloaded from the container at the specified port (hub) and loaded immediately into the second container.

The use of special machines for unloading and loading in cross-staff operations and cargo security is very important. Because it can cause irreparable damage to the cargo.

For this reason, ensuring capable and experienced cross-staffing operators can ensure the health of cargo handling.

## **BULK Service**

Transportation of bulk, break-bulk, project and heavy cargo, over-sized cargo and other non-standard cargoes that are too big or too heavy for a container (NCL - Non Container Load). Vessel chartering and forwarding ship cargo lots.

## AIR SERVICE

We offer air services including :  
Cargo - Airport to airport  
Express - Door to door

Our transportation services are designed for special handling cargo (valuables, non-standard size cargo, DG, powder, battery, liquid). We support Air freight from all airports of China to IKA.

We handle airport to airport services which is ideally suited to customers with a high volume of business requiring time-critical delivery. We co-operate with QR/TK/EK/EY in Middle East and Africa and co-operate with WS/QR/IR in Europe.

We have warehouses in south and Middle China, providing our customers with a diverse range of services including stocking, packaging, labelling, consolidation etc.

## **Overland Services**

Overland transportation from all around Europe & Turkey (both LTL & FTL). We have extensive experience in dealing with all types of oversized, out of gauge or extreme heavy loads. All such operations are supervised by our experienced superintendents who plan and execute the move from the beginning to final delivery at site.

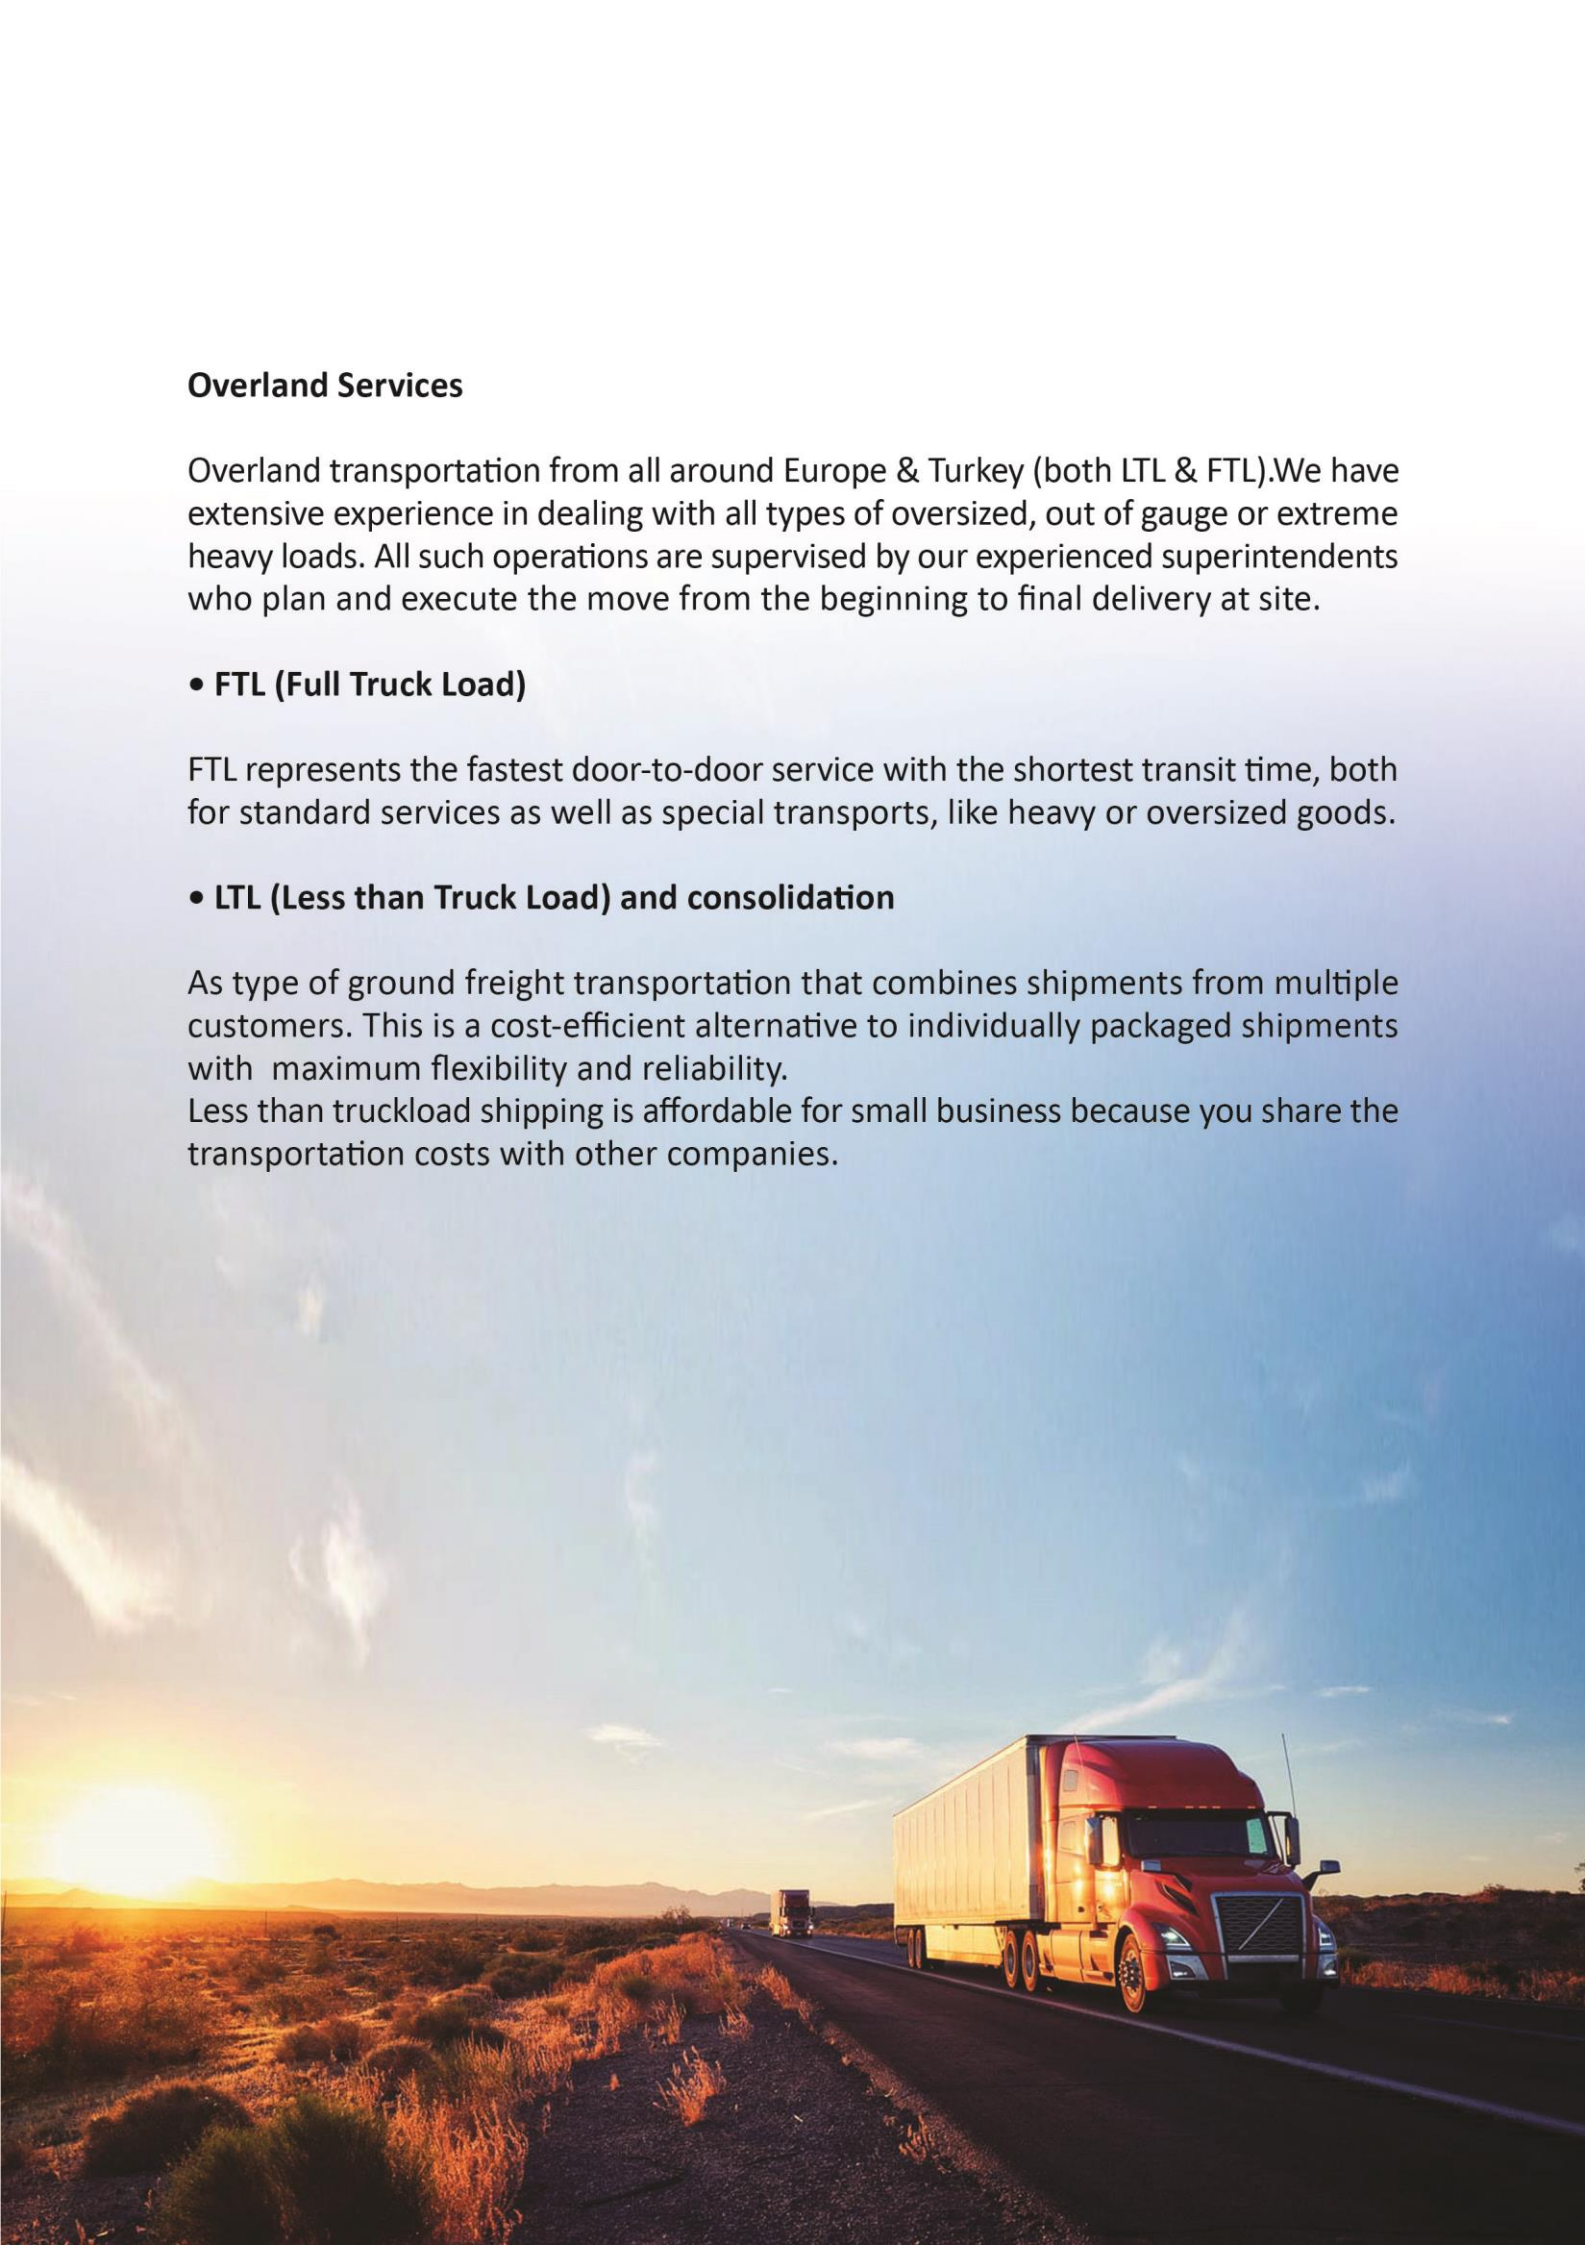

- **FTL (Full Truck Load)**

FTL represents the fastest door-to-door service with the shortest transit time, both for standard services as well as special transports, like heavy or oversized goods.

- **LTL (Less than Truck Load) and consolidation**

As type of ground freight transportation that combines shipments from multiple customers. This is a cost-efficient alternative to individually packaged shipments with maximum flexibility and reliability.

Less than truckload shipping is affordable for small business because you share the transportation costs with other companies.
